INTRODUCTION

In a galaxy far, far away, a diverse group of individuals united by a shared vision decided to revolutionize the crypto world. Tired of the exploitation and selfishness prevalent in the space, they founded the Mememetaverse. This cooperative environment aims to protect and support all its members by fostering collaboration and launching new meme coins themed around planets.

MEMBERSHIP AND PARTICIPATION

The Mememetaverse welcomes anyone seeking a safe haven in the often volatile crypto space. For a one-time membership fee of £25 in \$BMM (for the first 100 members, then £30), members gain lifetime access to the spaceport, involvement in the community, and opportunities to participate in new coin launches.

COIN LAUNCHES AND COMMUNITY INVOLVEMENT

New coins are launched by the Admin Crew, with funding split equally between personal admin contributions and the marketing wallet. Community members, or "space cadets," decide on aspects like coin names, colours, and marketing strategies through discussions and polls. The utility of these new coins includes entry into the Mememetaverse and participation in future coin projects.

EARNING AND BENEFITS

Members holding a minimum of 750k \$BMM in their BlueMoonSol wallet qualify for "space dust" airdrops, providing a win-win situation where the initial membership fee is quickly repaid. New coin releases align with the arrival of new planets in the solar system, offering members early investment opportunities.

- **No Promotion of External Coins:** Focuses solely on Mememetaverse coins.
